Premier | Sotheby's  
INTERNATIONAL REALTY

**Leaning Oak Farm.** The most discerning home owner will appreciate the stone work utilized around the gated entrance of this beautiful equestrian estate. The entrance ensures privacy, while at the same time, announces what is found behind the gates. The driveway meanders past the lush green pastures, Cryptomeria and Holly trees line the drive to the home nestled among hardwoods. Hardi-Board and Stone exterior helps with maintenance, leaving time to enjoy the land, your horses and a healthy active lifestyle. The flower boxes, stone walkways, patios and surrounding extensive landscaping all help create an elegant yet natural outdoor living space.

Upon entering the tiled foyer, you will feel the warmth of this 4,791 square foot custom designed and built home by local builder Triple T Builders. Artistic and architectural details include a commissioned canvas foyer wall painting, wall fountain, professional Faux and authentic Venetian plaster painting, arched doorways, columns, extensive trim work and stone accents. Accent lighting enhances the trim work and custom built-in cabinets and display shelves located throughout the home. Ten foot ceilings and eight foot doors on the main floor, as well as, hardwood, tile and slate flooring. Special touches throughout the home make this a one-of-a-kind custom home. Living spaces are warm and inviting and take advantage of the property views. In addition to the comfortable living room you can relax, entertain or read a good book in either the tiled sunroom or in front of the fireplace in either the keeping room or den.

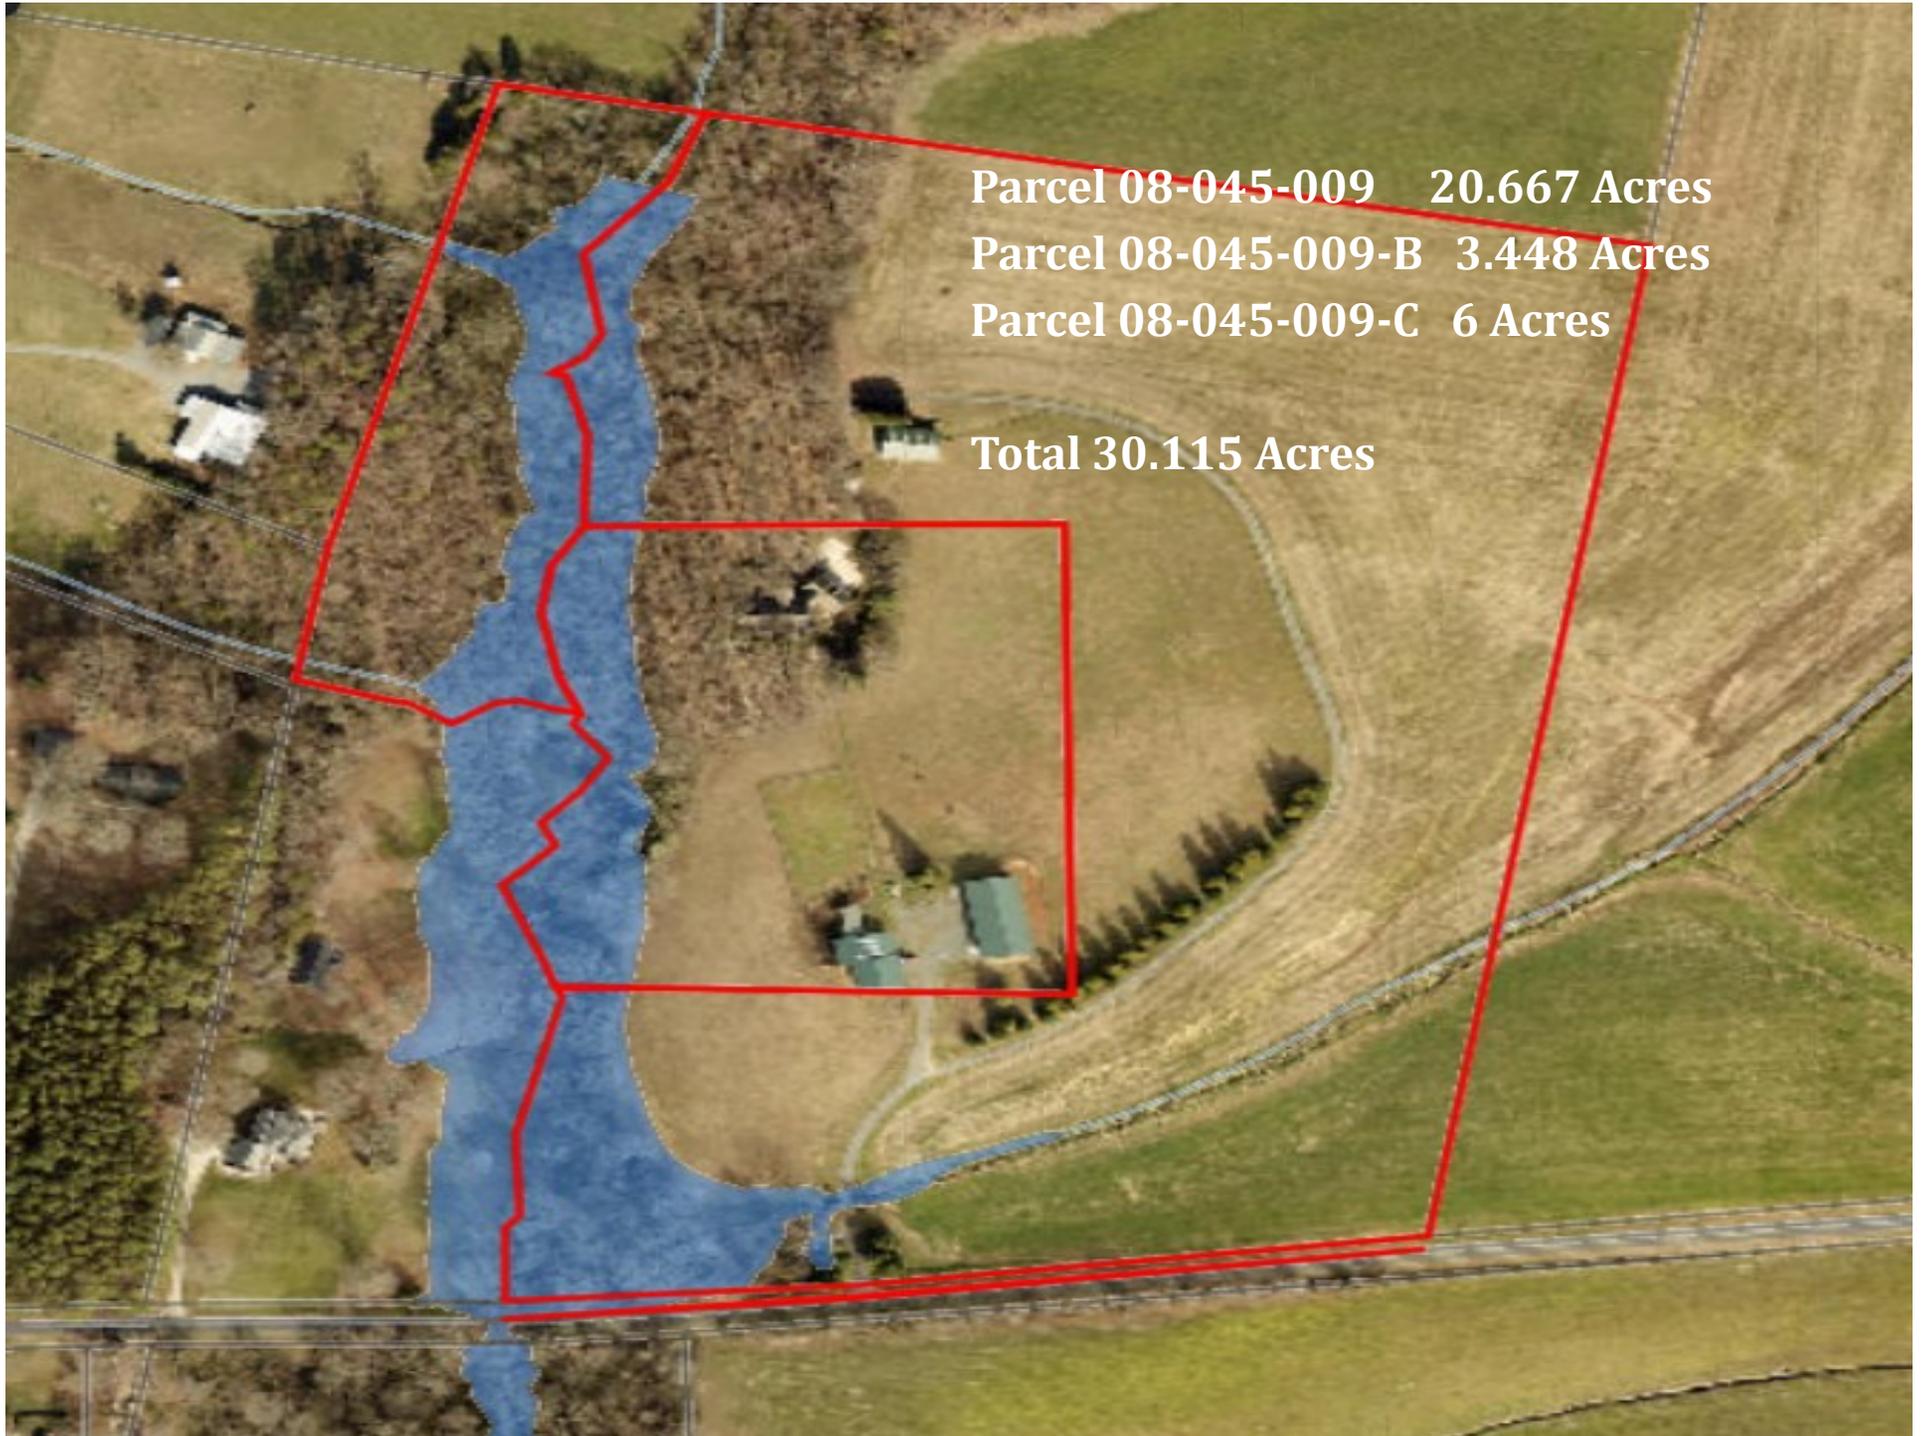

A focal point of the home, the oversized kitchen was designed for entertaining. Granite counter tops, 3" butcher block island with vegetable sink, tile back splash and custom cabinets are ideal complements to the double oven, warming drawer, Blue Star 6 Burner Cook top, Bosch dishwasher, KitchenAid Refrigerator and GE Advantium Microwave. Guests can gather in the keeping room in front of the stone fireplace or the adjoining den. Holiday meals can be served in the formal dining room & staged in the butler's pantry which offers an icemaker, wine cooler and wet bar. More casual meals can be enjoyed under the knotty pine domed ceiling in the breakfast room overlooking the park-like back yard.

Rejuvenate in the master suite. The sauna and whirlpool garden tub will help accomplish this at the end of the day. There are many possible uses for the adjoining 14' x 11' space. Just in case the two large walk-in closets are not enough, the shoe closet should help with the overflow. The second floor offers two guest bedrooms, two guest bathrooms and a large office/library with hardwood floors, rich Cherry book cases, built-in desk and cabinets. Wired and insulated the more than 1,000 square feet of storage space is just waiting to become a game room or media room.

There are two 3-stall horse barns, each with a pasture and each with a different personality. One is an oak board and batten barn with a covered patio area, tack room, concrete aisle way, feed room and an equipment storage shed. A new 36' x 36' addition offers more opportunities. Stalls have Dutch doors that open up to a covered overhang and dry paddock. The second barn is closer to the house, metal sided and more contemporary. It too offers a tack room and stalls that open to a covered overhang. Let the horses determine when they need shelter. The set-up of the barns along with automatic waterers will keep your work to a minimum. High tensile rubberized 4-strand fencing with two strands of electric wire and a flex type 4" top provide a safe and attractive fence. Trail riders will enjoy the trails along the creek. The addition of the large climate controlled workshop, 4 bay covered parking and enclosed storage room, is ideal for those with hobbies, cars, carriages, etc.

While you will not want to leave home or these beautiful views, you will appreciate how easy you can access I-485 to get to Charlotte, Mint Hill, Matthews and Monroe.
