LOT INFORMATION STATEMENT IMPORTANT: READ CAREFULLY BEFORE SIGNING ANYTHING

The Developer has obtained a regulatory exemption from registration under the Interstate Land Sales Full Disclosure Act. One requirement of that exemption is that you must receive this Statement prior to the time you sign an agreement (contract) to purchase your lot.

RIGHT TO CANCEL:

You have the option to cancel your contract or agreement of sale by notice to the Seller until midnight of the seventh day following the date of the signing of the contract or agreement.

If you did not receive this Lot Information Statement prepared pursuant to the rules and regulations of the Bureau of Consumer Financial Protection, in advance of your signing the contract or agreement, the contract or agreement of sale may be canceled at your option for two years from the date of the signing.

RISK OF BUYING LAND:

There are certain risks in purchasing real estate that you should be aware of. The following are some of those risks: The future value of land is uncertain and dependent upon many factors. Do not expect all land to automatically increase in value.

Any value your lot may have will be affected if roads, utilities and/or amenities cannot be completed or maintained.

Any development will likely have some impact on the surrounding environment. Development which adversely affects environment may cause governmental agencies to impose restrictions on the use of the land.

In the purchase of real estate, many technical requirements must be met to assure that you receive proper title and that you will be able to use the land for its intended purpose. Since this purchase involves a major expenditure of money, it is recommended that you seek professional advice before you obligate yourself.

If adequate provisions have not been made for maintenance of the roads or if the land is not served by publicly maintained roads, you may have to maintain the roads at your expense.

If the land is not served by a central sewage system and/or water system, you should contact the local authorities to determine whether a permit will be given for an on-site sewage disposal system and/or well and whether there is an adequate supply of water. You should also become familiar with the requirements for, and the cost of, obtaining electrical service to the lot.

SUPPLIERS OF UTILITIES AND ISSUERS OF PERMITS

WATER WELLS:

Water can be supplied to the building sites by private wells. Some owners choose to drill and maintain their own while others opt to utilize a common or shared well situation. Average well depth depends upon land contours. One area company that can provide well services is Lusier Drilling, Inc., 220 Marks Drive, Oconto Falls, WI 54154 (920) 848-5239. Exact well depths cannot be determined prior to drilling. Well permit information can be obtained at the Marinette County Zoning Administrator , 1926 Hall Avenue, Marinette, WI 54143, (715) 732-7430.

SANITARY DISPOSAL SYSTEM:

The exact type of sewage disposal system permitted to serve each lot is dependent upon the exact soil characteristics, topography, location and intended use. Detailed soil tests conducted by a Wisconsin Certified Soil Tester are required to determine the type of system permitted. These parcels are guaranteed to accept a state approved sanitary system. One area company that can provide sanitary system design and installation services is Richlen Excavating, W8983 CTH A, Crivitz, WI, 54114, (715) 854-7928.
